## CGI HR Interview Questions with Answers

### 1. Briefly describe yourself

Before proceeding to answer the question, kindly listen to the question carefully. The interviewer isn't asking about introducing yourself he is asking to describe yourself, there is a remarkable difference in both these questions. When asking this question, the interviewer will be expecting you to explain how you are as an individual, what is your personality, character traits, and all that. For instance, you can begin by saying "I'm an ambitious and well-organized individual, who likes to plan out everything before diving into work and rarely gets disoriented in what I'm doing. And as an ambitious person, I would like to set goals and try to achieve them as frequently as possible. Friends describe me as a people's person, I enjoy interacting with new people and feel excited to listen to their experiences in the work field." While conveying the answer try to put and back your answers with examples so that it seems genuine.

### 2. What do you know about CGI

From this question, the interviewer wants to know whether you are aware of the CGI as a company, what are its products, who are its competitors, the latest technology it uses, and all that. Researching about the company before appearing for the interview will help you guys in answering this question. Now, you can answer this question by covering details like "Where the company has started, Who has started it, The market value it is currently having, The total workforce (No. of Employees), CGI work culture, The strategies they follow, Partnership or Alliances they have with other companies, Current Competitors, etc.," Copyright to <https://www.freshersnow.com/>

### 3. How comfortable you are adapting to new technology?

The most ever-changing industry is IT Industry. The technology you learned in the last year can be outdated in the present. For you to be successful in this type of industry you need to upgrade yourself constantly. By this question, the interviewer will like to know how do you receive change? whether you are comfortable or get uncomfortable because of change. So, you can respond by saying "I prepare myself and take a task to learn whatever happening in the industry so that I won't be left behind. I believe in the concept of Continuous learning, so adapting to new technology will not be an issue for me rather I will be comfortable in knowing that it will enhance my career and help me build my professional life".

## 4. Where do you see yourself in the coming 5 years?

Whenever the recruiter hires people he will be thinking that you will be part of their workforce for a long time. No one wants to hire people who won't be there after 2 years. So, answer this question accordingly. Make sure you convey how you see yourself working for a long time in the company, taking newer opportunities that can help you grow in your career, and also talk about how you want to see yourself as a valuable asset to the company.
