Directions (76-80): In each question a sentence with two words/ group of words printed in **bold** type are given. One of them are both of them may have a certain error, you have to find out the correct word/ group of words from among the four choices given below each sentence to replace the incorrect words/ group of words and make the sentence grammatically correct and meaningful. If the sentence is correct as it is mark (5) i.e.,No correction required' as your answer.

- **76.** RBI has asked banks **that disclose** the fees and commissions they have camed through the **sell** of life insurance policies.
 - 1) disclosure selling
- 2) disclosed sell
- 3) to disclose sale

- 4) can disclose sales
- 5) No correction required
- 77. Our Development officer is very **encourage** and helps me do what ever is **necessity** to achieve my goals.
 - 1) encouraging necessary
- 2) encouraged necessarily
- 3) encourages necessary
- 4) encouraging necessities
- 5) No correction required
- **78.** According to experts, the Indian banking system is **better that of every** developed countries
 - 1) Very good any
- 2) best much
- 3) more better all

- 4) better than many
- 5) No correction required
- **79.** People should **be buying** health insurance at a young age and **maintains** it for a lifetime.
 - 1) be bought maintained
 - 2) buy maintain
 - 3) have bought be maintaining
 - 4) not buy will maintain
 - 5) No correction required

80. Life insurance companies have appointed **around** 13 lakh agents during 2008 - 09 **despite** the recession

- 1) nearly because
- 2) about inspire
- 3) approximate on account
- 4) alomost In
- 5) No correction required

Direction (81-90): Read the following passage carefully and answer the questions given below it. Certain word/ phrases are printed in **bold** to help you locate them while answering some of the questions.

Most of the world's healthcare is financed directly by governments, but private insurance, which now makes up nearly a fifth of the total. Looks set for a state sponsored boom in the hope of solving problems in national systems of helthcare which include inadequate access to care and soaring costs.

In most countries state financed healthcare is not available to all. So governments want private insurance to be expanded to **cover** everyone. The most prominent effort is underway in America, where about 47 million lack health insurance of any kind. This effort is similar to reforms undertaken over the past decade in the Netherlands and Switzerland. To ensure equitable access, both countries forbid private insurers from discriminating against, applicants because they are in poor health or at high risk of falling ill. This practice is known as "lemon dropping" A lightly regulated expansion of private insurance in effect turning health insurance into a utility - can thus expand coverage. This is also likely be true in developing countries. Whose public health care systems are often hopelessly over stretched and under funded, although because poor countries cannot afford the subsides and regulatory mechanism of the rich world, coverage is likely be **confined** to the better off.

The second reason why government have turned to private insurance is cost control. The hope was that by ruthlessly tackling costs and promoting efficiency, market-minded insurers would help rein in runaway health inflation where, governments could not. Whatever the role played in a health system, private health-insurance has added to total health expences. It is no coincidence, that the countries with the biggest private health-insurance sectors-America, France, Germany and Switzerland - also have some of the highest healthcare costs per person.

There are several explanations for this. Because a third party pays the bill, the

true cost of health services is rarely made clear to them. Nor is the true price of insurance, especially if coverage is provided through an employer. This encourages over-insurance and **over-consumption of healthcare**. Another incentive problem also arises from lack of transparent pricing. Studies have shown that the fees for similar procedures vary widely among hospitals in the same area. Because hospitals and doctors both decide on the services patients must have and dictate the price of those services, they often enjoy a powerful information advantage over insurers. Thus doctors and hospitals have an informational advantage and an incentive to over supply their services.

- **81.** Why do governments look to private insurers to reduce inflation in the health-care system?
 - A) Private health insurance companies are professionally managed.
 - B) It is in the interest of the private insurers to do so.
 - C) Their pricing system does not reveal the hidden costs in healthcare.
 - 1) Only B

2) Only C

3) Only B and C

- 4) All A, B & C
- 5) None of these.
- **82.** Which of the following is a problem facing healthcare system in developing countries?
 - 1) Quality healthcare is available only in private hospitals.
 - 2) Constant government interference in the system.
 - 3) Healthcare facilities are insufficient and often made available only to the rich.
 - 4) Subsidising healthcare has resulted in many hospitals becoming loss making.
 - 5) Profitable hospitals are forced to bail out loss making ones.
- **83.** Which of the following is TRUE about private health insurance?
 - A) According to prevailing laws, private health insurers can cater to only 20 percent of the population.
 - B) In western countries private health insurance is unregulated by the government.
 - C) Most governments are now encouraging the participation of private companies in providing healthcare.
 - 1) Only A and C
- 2) Only C

3) Only A and B

- 4) All A, B and C
- 5) None of these

84. What does the phrase 'over consumption of healthcare' convey in the context of the passage?

- 1) People opt for unnecessary medical treatments because they do not have to pay for it.
- 2) Healthcare consumes too much of a nations budget in developed countries.
- 3) Government hospitals often recommend unnecessary procedures for patients.
- 4) In developing countries, the healthcare system cannot cope with the demands of their population
- 5) None of these

85. Why did the government of Switzerland prohibit the practice of lemon dropping?

- 1) To reduce the profits of private health insurers.
- 2) To facilitate equitable access to all its citizens.
- 3) To prevent discrimination against the poor.
- 4) To ensure that America's healthcare system problems do not occur in theirs.
- 5) To cut the cost of healthcare per person.

86. What is the author's main objective in writing the passage?

- 1) Convincing governments to restrict private sector participation in health care
- 2) Criticising developing countries for the efforts to reform their health care systems.
- 3) Pointing out the advantage of adopting European healthcare reforms in developing countries.
- 4) Elaborating the pros and cons of private sector participation in health insurance.
- 5) Stating that state interference in health insurance is undesirable

87. What impact has the lack of transparency in pricing had on healthcare costs?

- 1) Patients have become key decision makers in the treatment process.
- 2) Medical personnel do not get uniform incentives.
- 3) Insurance and doctors conspire to charge exorbitant fees for treatment.
- 4) Well off patients often end up with huge subsidies from hospitals.
- 5) Doctors and hospitals have an informational advantage and an incentive to over-supply their services.

Directions (88-89): Which of the following is **most similar** in meaning to the word given in **bold** as used in the passage?

	given	in bold as used in the pas	sage?	
88.	CONFINED			
	1) Captured	2) Locked	3) Detained	
	4) Limited	5) Imprisoned		
89.	COVER			
	1) Conceal	2) Hide	3) Suppress	
	4) Bury	5) Include		
90.	Which of the following is most opposite in meaning to the word CONTROL given in bold as used in the passage?			
	1) Permit	2) Obey	3) Supremacy	
	4) Powerless	5) Increase		
	A) After all India's educate be huge, next only B) Indian cellular equations are in demand. C) In the 1990s cellular educate by To make Indian need to be taken E) This resulted in a grew phenomene.	expected equipment requirely to China's. The pulse of the control	volume of cell phone subscribers	
01	,	0 0 1	yers the opportunity to step in.	
91.			ntence after rearrangement?	
	1) B	2) C	3) D	
02	4) E	5) F	INCOLO CONTRACTOR CONT	
92.	ment?	ring will be the LASI (S	IXTH) sentence after rearrange-	
	1) A	2) B	3) C	
	4) D	5) E		

93.	Which of the following will be the FIRST sentence after rearrangement?			
	1) A	2) B	3) C	
	4) D	5) E		
94.	Which of the following will be the THIRD sentence after rearrangement?			
	1) A	2) B	3) C	
	4) D	5) F		
95.	Which of the following will be the SECOND sentence after rearrangement?			
	1) B	2) C	3) D	
	4) E	5) F		
Direc	ctions (96-100): Pick out	the most effective word/ground	up of words from those	
giver	n to fill in the blanks to mal	ke the sentence meaningfully	complete.	
96.	RBI is about the fact that many banks are in mutual funds.			
	1) concerned, investing	2) worried, shared
