Oracle HR Interview Questions and Answers - For Freshers

1. Why should I hire you from the outside when I could promote someone from within?

This is a tricky question, the interviewer asks you to test and know whether you have the capability to match the job requirement they have specified and are able to fill the position. You can specify the qualities or talent/ knowledge you have and what you can bring to your work to do it efficiently. And further, you can specify how your fresh ideas will help the organization to work productively.

2. What is the main problem that our country faces at the moment?

While answering this question kindly avoid giving general answers like corruption, pollution, etc., Try to think like a profession and analyze what is lagging in the country that stops us from being the developed country. You can respond by saying that "How our country is not able to provide higher educational qualifications like topmost countries like USA, Canada, Australia is providing. Because of which the young and capable aspirants are moving out of the country to pursue their higher studies and settling their or working and generating high revenue to that countries. In

order to rectify that our country should promote itself as a platform for career guidance and able to retain the students to work in their motherland rather than going out."

3. What do you find is the most enjoyable part, working in a company?

The first & foremost thing that can affect any employee's work performance is companies work environment. Whatever you do, you have to enjoy it and then you can automatically create efficiency in working. Now, you have to answer this question by stating one thing that you find interesting in Oracle and will always look forward to being an employee for them. For instance, you can say that their flexible working hours is the one thing you enjoy most and how this helps you to gain additional knowledge to make your work better.
