34. Explain your projects?

SAP HR Interview Questions and Answers

1. **Tell me something about yourself**

Though it is the most common question that is asked in any of the interviews, it plays a prominent role for the entire interview session. Your answer to this question have to make or break the interviewer's perception of you. Start with the brief of yourself while could include, your educational qualification, strengths & weaknesses, achievements, hobbies, projects you did, interests & skills you have, etc.,

SAP Interview Questions for Freshers

2. Why should I hire you?

Firstly, get to know the interviewer's intention behind this question. In turn, he would like to know your interests, commitment, potential, and capabilities which will help for the growth of the company. While answering this question, give some strong demonstrations which highlight your worthiness for the company. https://www.freshersnow.com/

3. What are your greatest strengths and weaknesses?

Make sure that the interviewer won't get confused by your strengths and weaknesses. Don't brag about your strengths, and the same goes for your weakness. Don't sound terrible while talking about your weaknesses. Be very careful while answering to this question. Know what the job role demands and focus on it and showcase your strengths. Some of the strengths that you can mention are Leadership skills, Good communication skills, Patience, Determination, Passionate, Oratory skills, Creativity, Dedicated, and Attention to detail.

4. What is unique about you?

To answer this question, you must know what skills you have which will differ you from others. You can justify it with the examples you have so that the interviewer will get to know you very easily. The intention behind every question that has been asked by the interviewer is to know your capabilities and the abilities that you have while will differ from the other candidates and in turn which would help for the wellness of the company.

5. Would you like to ask us something?

Though you have been given a chance to ask something, you were not expected to ask anything. Make sure that you do not ask sensitive questions like the compensation, annual turnover, etc., Some of the questions that you can ask are, Tell me about the company's biggest challenge this year?, Can you tell me the management style of the company?, What is it that makes you happy to come for work every day?
