Yahoo HR Interview Questions and Answers for Freshers

1. Tell something about you

This is the usual question that will be asked in any of the interviews. The main focus of this question is, the interviewer will try to know what kind of personality you have and will assess whether you will fit for the company or not. While speaking about yourself, make sure that you mention your educational qualification, strengths, weaknesses, achievements, hobbies, likes, dislikes, family background, etc., Brief about everything that you have mentioned on the resume, and don't summarize everything in the resume word by word.

Yahoo Interview Questions for Freshers

2. Do you think you are an organized person?

This is a chance given to you to showcase how organized you are in a day to day life. Thus, through your answer, the interviewer will get to know your potential to plan for things. You can go for this question with an example of how you've used different organizational systems and show that you're capable of being flexible. The interviewer will look that you can keep track of your deadline and will take responsibility to accomplish the given task in the given time. https://www.freshersnow.com/

3. What are your future goals?

To get selected for the desired role, you must know that the goals you have must align with the goals that the company has. Some of the employers expect lifetime commitment from the candidates, thus it is very important to covey your goal is compatible with the company's goals. While answering this question, keep one thing in mind, that is, you must not mention your personal goals which are out of the work. If you were failed to convey your goals, there may be many chances for you to get out form this job.

4. What do you know about Yahoo!?

You must be very careful while answering this question. Because whatever you say about the company will be already known by the panel. You can mention the reputation that the company had in the industry. Mention that how much pleasure it is for you to work for the company. You can also mention the company's values, ethics, culture, and work environment. The key to succeed this question is to be accurate and genuine while answering.

5. Are you a team player?

This question is asked to know whether you are able to collaborate, communicate and work well with others or not. To answer this question, you can draw a few of the traits that you have. Come up with your experiences, incorporate your strengths, give an honest answer, thus at the end, the interviewer will get to know how much you are capable of. Sometimes this question will be asked in different ways like, 'Tell about a team project you have worked on and what is your contribution for its success?', 'Do you enjoy working as part of a team?', or 'How effectively you can collaborate with others?'.
