## Computer Knowledge

1. Which of the following measure(s) is/are used to determine the quality of a printer \_\_\_\_. a) Dots printed in a minute b) Dots per Inch d) All of the Above c) Dot-Per-Square-Inch \_\_\_\_\_ is the mode we use to execute the instruction from a computer. 2. a) Sequential d) None of the above b) Parallel c) Both (a) & (b) Modern computers are reliable but they don't have \_\_\_\_\_. 3. d) Self thinking b) Powerful a) Fast c) Cheap What is meant by devoted computer \_\_\_\_\_. 4. a) Which uses only one kind of software b) Which is used by only one person c) Which is assigned with only one task d) No such type of computers are available 5. The system unit of a personal computer typically contains all of the following except? a) Microprocessor b) Disk Controller c) Serial interface d) Modem A computer program that converts an entire program into a machine language is 6. called \_\_\_\_\_. b) Simulator c) Compiler a) Interpreter d) None of the above A computer program that converts one by one instruction into a machine language is 7. called \_\_\_\_\_. b) Simulator a) Interpreter c) Compiler d) None of the above \_\_\_\_\_ is an internet based computing solution where shared resources are provided. 8. a) Cloud Computing b) Networking c) LAN d) None of the above \_\_\_\_\_ is the language that computer can understand and execute. 9. a) Middle Level Language b) Machine Level Language c) High Level Language d) All of the above

10	10 is a set of instructions, also called a program that tells a computer how to						
perf	perform tasks.						
a) H	ardware	b) Software	c) Both (a) and (b)	d) None of the above			
11. Rou	11. Router is device.						
a) In	iput	b) Output	c) Both (a) and (b)	d) None of the above			
12. Sca	12. Scanner is device.						
			c) Both (a) and (b)	d) None of the above			
13 The	building b	lock for all informa	tion that flows through a	computer			
	it		c) Both (a) and (b)	-			
14	is the sof	twore that controls	all the other software pro	arome and allows to			
	orm basic		all the other software prog	grams and anows to			
-		b) Hardware	c) Windows	d) Operating System			
••) 2		c)	<i>c)c</i>	<i>c)</i> of oracing <i>c</i> journ			
15. The	following	is termed as p	bermanent memory.				
a) R	andom Ac	cess Memory	b) Read Only Memory				
c) F	lash Memo	ory	d) Cache Memory				
16. Mer	nory that to	emporarily stores da	ata and that can be erased	or changed is known as			
a) C	ache Mem	ory	b) Read Only Memory				
c) F	lash Memo	ory	d) Random Access Memory				
17. Info	17. Information that is entered into a computer is called as						
a) Ir	iput	b) Output	c) Both (a) and (b)	d) None of the above			
18. Info	18. Information that a computer produces and delivers back to the user is known as						
a) Ir	iput	b) Output	c) Both (a) and (b)	d) None of the above			
19. MP3 player is							
a) Ir	put device	b) Output device	c) Both (a) and (b)	d) None of the above			
20. The	20. The smallest unit of computerized data is referred as						
a) B	it	b) Byte		d) None of the above			

https://www.freshersnow.com/previous-year-question-papers/

21. After copying the content, how many times can you paste					
a) Only one time	b) Two times				
c) Three times	d) Many times				
22. What is the keyboard shortc	ut key to merge a doci	iment			
a) Alt+Shift+N b) Alt+Shift	t+O C) Alt+Shift+P	d) All+Shill+Q			
23. In a table to move to the first	st cell in a row, is	s the keyboard shortcut key.			
a) Alt+Tab b) Alt+Shift	t c) Alt+Ctrl	d) Alt+Home			
24. To find text, formatting and	special items is t	the keyboard short key.			
a) Ctrl+g b) Ctrl+h	c) Ctrl+f	d) Ctrl+a			
25. What is the shortcut key to a	display the 'save as' dia	alog box			
a) F8 b) F12	c) F11	d) F9			
26. Among the following	_				
a) Average b) Count	c) ABS	d) AND			
27. Of the following is correct s	syntax in excel?				
a) REPLACE (old-text, num-chars, Start-num, New-text)					
b) REPLACE (old-text, Start-num, num-chars, New-text)					
c) REPLACE (old-text, New-text, num-chars, Start-num)					
d) REPLACE (num-chars, Start-num, old-text, New-text)					
28. Which of the following is correct					
a) Frequency (data-array, bin		ency (data, bins)			
c) Frequency (data, bins arra	ay) d) Frequ	ency (array, bins array)			
29. Without the symbol '=' excel will treat the data as					
a) Number b) Formula	c) Text	d) None of the above			
30. False () function					
a) Returns the logical value of false b) Returns the logical value of true					
c) Returns the actual value d) None of the above					

31. A group of computers connected together through a central sever using cables and						
other communication devices is known as						
a) Network	b) LAN	c) WAN	d) None of the above			
32. All types of ba	32. All types of banking transactions performed electronically without manual operation					
is known as	is known as					
a) E-Banking		b) Computerization				
c) Modernizat	ion	d) None of the above				
33. Banks use con	nputers for					
a) Track custo	mer informatio	on b) Proces	ss the loan application			
c) Track the cr	edit card infor	cmation d) All of	the above			
34. Measuring uni	t of capacity c	of hard drive is				
_			d) None of the above			
	-, -		.,			
35. Web address is	s a unique add	ress to identify o	n web.			
a) Browser	b) Website	c) Link	d) All of the above			
36. In a network,	the computer t	hat stores the files and	processes the data is named as?			
a) Terminal	b) Modem	c) Server	d) None			
37. In processing of cheques which of the following technology is helpful to the banks ?						
a) OMR	b) Barcode	c) MICR	d) OCR			
38. The computer code for interchange of information between terminals is						
a) ASCII	b) ACSII	c) ASICI	d) ASIIC			
39. Of the following, is different from the group.						
	-		d) MS-PowerPoint			
40. Of the following, is not a computer language.						
a) MS-Word	b) C++	c) COBOL	d) BASIC			
41. A collection of related records in a database						
a) Field	b) File	c) Both (a) and (b)	d) None of the above			

## 42. VIRUS stands for \_\_\_\_\_.

- a) Virtual Information Resource Under Siege
- b) Vital Information Recourse Under Sage
- c) Virus Information Recourse Under Siege
- d) Vital Information Recourse Under Siege
- 43. \_\_\_\_\_ is known as restricting the access to information.
- a) Decryption b) Encryption c) Hacking d) None of the above 44. \_\_\_\_\_ is known as allowing the authorized access to information. a) Decryption b) Encryption c) Hacking d) None of the above 45. \_\_\_\_\_ is known as unauthorized access to the system. a) Decryption b) Encryption d) None of the above c) Hacking 46. \_\_\_\_\_ are the examples of pointing devices. a) Electronic Mouse b) Pointing Stick c)Track ball d) All of the above 47. The device that is used to read bar codes is \_\_\_\_\_. a) OMR b) Barcode c) MICR d) OCR
- 48. Nano Second is the \_\_\_\_\_.
  - a) Millionths of a second
  - b) Billionths of a second
  - c) Trillionth of a second
  - d) Thousands of a second

49. Of the following, \_\_\_\_\_ would be considered as a way through which a computer virus can enter into a computer system.

- a) E-mail with attachments
- b) Downloading the data from sites
- c) Operating the system without antivirus software
- d) All of the above

50. \_\_\_\_\_ is known as a computer network in which one centralized, powerful computer is a hub to which many less powerful personal computers or workstations are connected. The clients run programs and access data that stored on the server.

a) Client-Server network	b) Extranet	c) Internet	d) None of the above.
