## Computer Knowledge

1. Which of the following measure(s) is/are used to determine the quality of a printer $\qquad$
$\qquad$
a) Dots printed in a minute b) Dots per Inch
c) Dot-Per-Square-Inch d) All of the Above
2. $\qquad$ is the mode we use to execute the instruction from a computer.
a) Sequential b) Parallel c) Both (a) \& (b) d) None of the above
3. Modern computers are reliable but they don't have $\qquad$ .
a) Fast b) Powerful c) Cheap d) Self thinking
4. What is meant by devoted computer $\qquad$ .
a) Which uses only one kind of software b) Which is used by only one person
c) Which is assigned with only one task d) No such type of computers are available
5. The system unit of a personal computer typically contains all of the following except?
a) Microprocessor b) Disk Controller
c) Serial interface d) Modem
6. A computer program that converts an entire program into a machine language is called $\qquad$ .
a) Interpreter b) Simulator c) Compiler d) None of the above
7. A computer program that converts one by one instruction into a machine language is called $\qquad$ .
a) Interpreter b) Simulator c) Compiler d) None of the above
8. $\qquad$ is an internet based computing solution where shared resources are provided.
a) Cloud Computing b) Networking c) LAN d) None of the above
9. $\qquad$ is the language that computer can understand and execute.
a) Middle Level Language b) Machine Level Language
c) High Level Language d) All of the above
10. Which of the following measure(s) is/are used to determine the quality of a printer $\qquad$ .
a) Dots printed in a minute b) Dots per Inch
c) Dot-Per-Square-Inch d) All of the Above
11. $\qquad$ is a set of instructions, also called a program that tells a computer how to
perform tasks.
a) Hardware b) Software c) Both (a) and (b) d) None of the above
12. Router is $\qquad$ device.
a) Input b) Output c) Both (a) and (b) d) None of the above
13. Scanner is $\qquad$ device.
a) Input b) Output c) Both (a) and (b) d) None of the above
14. The building block for all information that flows through a computer $\qquad$ .
a) Bit b) Byte c) Both (a) and (b) d) None of the above
15. $\qquad$ is the software that controls all the other software programs and allows to perform basic tasks.
a) Software b) Hardware c) Windows d) Operating System
16. The following $\qquad$ is termed as permanent memory.
a) Random Access Memory b) Read Only Memory
c) Flash Memory d) Cache Memory
17. Memory that temporarily stores data and that can be erased or changed is known as
a) Cache Memory b) Read Only Memory
c) Flash Memory d) Random Access Memory
18. Information that is entered into a computer is called as $\qquad$ .
a) Input b) Output c) Both (a) and (b) d) None of the above
19. Information that a computer produces and delivers back to the user is known as $\qquad$ .
a) Input b) Output c) Both (a) and (b) d) None of the above
20. MP3 player is $\qquad$ .
a) Input device b) Output device c) Both (a) and (b) d) None of the above
21. The smallest unit of computerized data is referred as $\qquad$ .
a) Bit b) Byte c) Both (a) and (b) d) None of the above
22. After copying the content, how many times can you paste $\qquad$ .
a) Only one time b) Two times
c) Three times d) Many times
23. What is the keyboard shortcut key to merge a document $\qquad$ -
a) Alt+Shift+N b) Alt+Shift+O c) Alt+Shift+P d) Alt+Shift+Q
24. In a table to move to the first cell in a row, $\qquad$ is the keyboard shortcut key.
a) Alt+Tab b) Alt+Shift c) Alt+Ctrl d) Alt+Home
25. To find text, formatting and special items $\qquad$ is the keyboard short key.
a) $\mathrm{Ctrl}+\mathrm{g}$ b) $\mathrm{Ctrl}+\mathrm{h}$ c) $\mathrm{Ctrl}+\mathrm{f}$ d) $\mathrm{Ctrl}+\mathrm{a}$
26. What is the shortcut key to display the 'save as' dialog box $\qquad$ .
a) $F 8$ b) $F 12$ c) $F 11$ d) $F 9$
27. Among the following $\qquad$ is a logical function.
a) Average b) Count c) ABS d) AND
28. Of the following is correct syntax in excel $\qquad$ ?
a) REPLACE (old-text, num-chars, Start-num, New-text)
b) REPLACE (old-text, Start-num, num-chars, New-text)
c) REPLACE (old-text, New-text, num-chars, Start-num)
d) REPLACE (num-chars, Start-num, old-text, New-text)
29. Which of the following is correct $\qquad$ .
a) Frequency (data-array, bins array) b) Frequency (data, bins)
c) Frequency (data, bins array) d) Frequency (array, bins array)
30. Without the symbol ' $=$ ' excel will treat the data as $\qquad$ .
a) Number b) Formula c) Text d) None of the above
31. False () function $\qquad$ .
a) Returns the logical value of false b) Returns the logical value of true
c) Returns the actual value d) None of the above
32. A group of computers connected together through a central sever using cables and other communication devices is known as $\qquad$ .
a) Network b) LAN c) WAN d) None of the above
33. All types of banking transactions performed electronically without manual operation is known as $\qquad$ .
a) E-Banking b) Computerization
c) Modernization d) None of the above
34. Banks use computers for $\qquad$ .
a) Track customer information b) Process the loan application
c) Track the credit card information d) All of the above
35. Measuring unit of capacity of hard drive is $\qquad$ .
a) GB b) GHz c) MHz d ) None of the above
36. Web address is a unique address to identify $\qquad$ on web.
a) Browser b) Website c) Link d) All of the above
37. In a network, the computer that stores the files and processes the data is named as?
a) Terminal b) Modem c) Server d) None
38. In processing of cheques which of the following technology is helpful to the banks ?
a) OMR b) Barcode c) MICR d) OCR
39. The computer code for interchange of information between terminals is $\qquad$ _.
a) ASCII b) ACSII c) ASICI d) ASIIC
40. Of the following, $\qquad$ is different from the group.
a) Windows b) MS-Word c) MS-Excel d) MS-PowerPoint
41. Of the following, $\qquad$ is not a computer language.
a) MS-Word b) $\mathrm{C}++$ c) COBOL d) BASIC
42. A collection of related records in a database $\qquad$ .
a) Field b) File c) Both (a) and (b) d) None of the above
43. VIRUS stands for $\qquad$ .
a) Virtual Information Resource Under Siege
b) Vital Information Recourse Under Sage
c) Virus Information Recourse Under Siege
d) Vital Information Recourse Under Siege
44. $\qquad$ is known as restricting the access to information.
a) Decryption b) Encryption c) Hacking d) None of the above
45. $\qquad$ is known as allowing the authorized access to information.
a) Decryption b) Encryption c) Hacking d) None of the above
46. $\qquad$ is known as unauthorized access to the system.
a) Decryption b) Encryption c) Hacking d) None of the above
47. $\qquad$ are the examples of pointing devices.
a) Electronic Mouse b) Pointing Stick
c) Track ball d) All of the above
48. The device that is used to read bar codes is $\qquad$ .
a) OMR b) Barcode c) MICR d) OCR
49. Nano Second is the $\qquad$ .
a) Millionths of a second
b) Billionths of a second
c) Trillionth of a second
d) Thousands of a second
50. Of the following, $\qquad$ would be considered as a way through which a computer virus
can enter into a computer system.
a) E-mail with attachments
b) Downloading the data from sites
c) Operating the system without antivirus software
d) All of the above
51. $\qquad$ is known as a computer network in which one centralized, powerful computer
is a hub to which many less powerful personal computers or workstations are
connected. The clients run programs and access data that stored on the server.
a) Client-Server network b) Extranet c) Internet d) None of the above.

ANSWERS:

1. c; 2. c; 3. d; 4. c; 5. d; 6. c; 7. a; 8. a;
2. b; 10. b; 11. c; 12. a; 13. b; 14. d; 15. b; 16. d;
3. a; 18. b; 19. c; 20. a; 21. d; 22. a; 23. d; 24. c;
4. b; 26. d; 27. b; 28. a; 29. c; 30. a; 31. a; 32. a;
5. d; 34. a; 35. b; 36. c; 37. c; 38. a; 39. a; 40. a;
6. b; 42. d; 43. b; 44. a; 45. c; 46. d; 47. b; 48. b; 49. d; 50. a.
