- (A) Suprachiasmatic Nucleus (B) Paraventricular Nucleus
(C) Supraoptic Nucleus (D) Anterior Hypothalamic Nucleus
37. Vinu has just finished his examination and handed over his answer sheet to the examiner. As he walks out of the examination hall; he realized that there were few more points to be added to his answer sheet. What is vinu's problem?
- (A) Encoding (B) Storage
(C) Retrieval (D) Processing
38. One of the following neurotransmitter is highly associated with depressive disorders :
- (A) Dopamine (B) GABA
(C) Serotonin (D) Acetylcholine
39. The main disadvantage of a case study method is that it is not :
- (A) Detailed enough for most research questions
(B) Easily done due to the large number of subjects
(C) Generalized to other similar conditions
(D) Biased
40. In which year, the first laboratory of psychology established in Germany by Wilhelm Wundt?
- (A) 1789 (B) 1879
(C) 1898 (D) 1798
41. During Action Potential, what type of ions is rushed in to the axon through the opening of the membrane?
- (A) Protein (B) Sodium
(C) Chloride (D) Potassium
42. The translation of a physical energy into electrical signals by specialized receptor cells is known as :
- (A) Sensory Adaptation (B) Sensory Stimulation
(C) Conduction (D) Transduction

43. A cognitive structure that contains our knowledge, beliefs and expectancies about some human social group is known as :
- (A) Schema (B) Stereotype
(C) Attitude (D) Prototype
44. Which of the following is a genetically based neuromuscular disorder?
- (A) Phenylketonuria (B) Huntington's Disease
(C) Parkinson's Disorder (D) Klinefelter Syndrome
45. Something is taken away from the situation, which makes the behavior more likely to continue or reoccur is?
- (A) Positive Punishment (B) Negative Punishment
(C) Positive Reinforcement (D) Negative Reinforcement
46. According to Sigmund Freud the psychosexual energy which stimulates personality development is known as :
- (A) Eros (B) Thanatos
(C) Libido (D) Ego
47. Which of the following psychotherapy approach uses empty chair technique for managing interpersonal or internal conflicts?
- (A) Solution Focused Therapy (B) Gestalt therapy
(C) Logo Therapy (D) Interpersonal Psychotherapy

50. Raju has irrational fear of heights, he used to avoid such situations and getting extremely anxious when his Friends are compelling him to go to the second floor. What is his condition known as?
- (A) Agoraphobia (B) Acrophobia
(C) Necrophobia (D) Pyrophobia
51. The systematic circulation includes all of the following structures except :
- (A) The Aorta (B) The portal vein
(C) The Pulmonary vein (D) The renal artery
52. Which of the following describes the volume of blood ejected by the heart in 1 minute?
- (A) Cardiac output (B) Stroke Volume
(C) Heart rate (D) Blood pressure
53. Production of oestrogen by the ovaries falls during the peri menopausal period in women because :
- (A) There is a surge of Luteinising Hormone from the pituitary gland
(B) The ovaries become less sensitive to Gonadotrophins
(C) Bone remodelling increases
(D) The corpus luteum becomes a corpus albicans
54. In coronary heart disease, the blood vessels are blocked with :
- (A) Salt (B) Fat
(C) Sugar (D) Aminoacids
55. The location of hexose monophosphate shunt in the cell is :
- (A) Endoplasmic reticulum (B) Mitochondria
(C) Ribosome (D) Cytosol
56. The precursor for the vasodilator nitric oxide is the amino acid :
- (A) Glutamine (B) Alanine
(C) Arginine (D) Valine

57. An enzyme that was first isolated and purified in the form of crystals :
- (A) Urease (B) Amylase
(C) Pepsin (D) Ribonuclease
58. The BMI cut off for an Indian in class 2 obesity is :
- (A) 30 – 35.7 (B) 32.5 – 37.4
(C) 35 – 39 (D) >40
59. Among the following, what leads to Congestive Cardiac failure :
- (A) Myocardial infarction (B) Ventricular Hypertrophy
(C) Both (D) None
60. Viral gastro enteritis is caused by :
- (A) Norovirus (B) Avian virus
(C) Rotavirus (D) Barmah forest virus
61. Molds are generally inhibited by :
- (A) Sorbic acid (B) Low level of sugar
(C) Anaerobic condition (D) Hypertension
62. Bleaching agents like Chlorine dioxide are commonly used in :
- (A) Jam (B) Fruit juices
(C) Sauces (D) Jellies
63. A low freezing point liquid used in immersion freezing :
- (A) glycerol (B) ethanol
(C) butanol (D) acetic acid
64. Chylomicrons are synthesised in the :
- (A) liver (B) colon
(C) pancreas (D) small intestine

65. The BMR (Basal Metabolic Rate) starts decreasing with :
- (A) Gender (B) Age
(C) Health (D) Work
66. The largest population of Scheduled Tribe is in :
- (A) Meghalaya (B) Madhya Pradesh
(C) Andhra Pradesh (D) Kerala
67. The Gender Development Index value of India as per HDR 2020 is :
- (A) 0.820 (B) 0.537
(C) 0.729 (D) 1.23
68. The National Population Policy 2000 aims at :
- (A) to address the unmet needs for contraception, health care infrastructure, and health personnel, and to provide integrated service delivery for basic reproductive and child health care.
