Question Booklet Alpha Code

Total Number of Questions: 100 Time: 75 Minutes

Maximum Marks: 100

INSTRUCTIONS TO CANDIDATES

- The Question Paper will be given in the form of a Question Booklet. There will be four versions of Question Booklets with Question Booklet Alpha Code viz. A, B, C & D.
- 2. The Question Booklet Alpha Code will be printed on the top left margin of the facing sheet of the Question Booklet.
- 3. The Question Booklet Alpha Code allotted to you will be noted in your seating position in the Examination Hall.
- 4. If you get a Question Booklet where the alpha code does not match to the allotted alpha code in the seating position, please draw the attention of the Invigilator IMMEDIATELY.
- The Question Booklet Serial Number is printed on the top right margin of the facing sheet. If your Question Booklet is un-numbered, please get it replaced by new Question Booklet with same alpha code.
- 6. The Question Booklet will be sealed at the middle of the right margin. Candidate should not open the Question Booklet, until the indication is given to start answering.
- 7. Immediately after the commencement of the examination, the candidate should check that the Question Booklet supplied to him/her contains all the 100 questions in serial order. The Question Booklet does not have unprinted or torn or missing pages and if so he/she should bring it to the notice of the Invigilator and get it replaced by a complete booklet with same alpha code. This is most important.
- 8. A blank sheet of paper is attached to the Question Booklet. This may be used for rough work.
- 9. Please read carefully all the instructions on the reverse of the Answer Sheet before marking your answers.
- 10. Each question is provided with four choices (A), (B), (C) and (D) having one correct answer. Choose the correct answer and darken the bubble corresponding to the question number using Blue or Black Ball Point Pen in the OMR Answer Sheet.
- 11. Each correct answer carries 1 mark and for each wrong answer 1/3 mark will be deducted. No negative mark for unattended questions.
- 12. No candidate will be allowed to leave the examination hall till the end of the session and without handing over his/her Answer Sheet to the Invigilator. Candidates should ensure that the Invigilator has verified all the entries in the Register Number Coding Sheet and that the Invigilator has affixed his/her signature in the space provided.
- 13. Strict compliance of instructions is essential. Any malpractice or attempt to commit any kind of malpractice in the Examination will result in the disqualification of the candidate.

14.	general fair curves which cannot be repres To apply various arithmetical methods, it	ips or the boundaries of waterplanes are in esented by a single mathematical equation. it is assumed that the curved boundaries nich among the following methods is mainly ability? B) Simpson's rule D) Midpoint rule
15.	The power available in the crank shaft of a in the working of an engine is known as A) Shaft horse power C) Indicated horse power	an engine after deducting the frictional loss B) Effective horse power D) Brake horse power
16.	with another is made using a number of ovolume of the underwater form to the volume	f ship's hull. Comparison of one ship's form coefficients. The ratio between the actual me of a block with length equal to the length of the breadth of the vessel and depth equal
17.	Choose the odd one among the following	otter boards
	A) Suberkrub	B) Rectangular flat
	C) Rectangular curved	D) V-form
18.	If 9000 m of a single yarn weigh 10g, v designation of this yarn? A) 10 Tex C) 10 Nm	which among the following is the correct B) 10 Td D) 10 Ne
19.	the head rope of the trawl is known as	a trawl to give a smooth catenary curve to
	A) Overhang	B) Quarter
	C) Flapper	D) Jib
Α	-	-5-

Д	-	6-	
	A) Omega 3 fatty acidsC) Tropomyosin	-	Myosin Omega 6 fatty acids
26.	Fresh water fishes contain a high level of fishes.		
	ground and the warp released is known a A) Aspect ratio C) Slip ratio	B)	Scope ratio None of the above
25.	The length of warp released in bottom of fishing ground and the nature of the sea	bott	
24.	Which among the following is the Internat A) Alfa Romeo (AR) C) Alfa Sierra (AS)	B)	Code signal of distress ? November Charlie (NC) Charlie Quebec (CQ)
23.	If a vessel engaged in day fishing hoist conveyed? A) My net has come fast upon an obstruct B) I am hauling net C) Keep clear of me I am engaged in pair D) I am shooting net	tion	
22.	In Navigation, fixing present position or a position, using known directions and dista A) Piloting C) Radio Navigation	nces B)	•
21.	In the Redditch scale of hook numbering hook is A) 15 B) 17	-	em the number designating the finest 18 D) 16
20.	What is the correct cutting rate to make via 40 meshes at the bottom and with 90 meshone side? A) 1 N or P cut: 4 Bar cut C) 1 T or M cut: 4 Bar cut	shes B)	
20	What is the correct cutting rate to make a	wehh	ing with 100 meshes on the top and

27.	7. The canning process in which the release of gases from fish tissue and inhibit enzymatic reactions is achieved by the process called					
	A) Double seaming		B)	Sodium sulphate		
	C) Blanching		D)	Pressure steaming	ng	
28.	The preservative valu present in the woods.	e of smoking is char	acte	erized by the		content
	A) Phenolic	B) Resinous	C)	Carbon dioxide	D)	Acidic
29.	The transportation of f	rozen fish by air Car	go i	s done by using		
	A) Liquid nitrogen		B)	Air blast freezing		
	C) Solid carbon dioxid	de	D)	Brine freezing		
30.	Sorbic acid is used as	a preservative to pre	otec	t the fish from		
	A) Bacterial spoilage		•	Glazing		
	C) Rancidity		D)	Fungal spoilage		
31.	The compound respon	nsible for the foul odd	our (due to spoilage of	maı	rine fish
	A) Trimethylamine		•	Trimethylamine o	xide	e
	C) Ammonia		D)	Pyridine		
32.	Onset of rigor mortis t	he changes of the m)	
	A) ATP hydrolysis		•	Trimethylamine		
	C) Creatine phosphat	e	D)	Autolysis		
33.	Which amino acid is re	•				
	A) Tryptophan	B) Histidine	C)	Lysine	D)	Leucine
34.	Isinglass has been pre	•				
	A) Fish scale	B) Fish skin	C)	Air bladder	D)	Fish Roe
35.	What is the 'pit curing'	of fish?				
	A) Wet salting	B) Steam drying	C)	Freeze drying	D)	Hot smoking
36.	Which of the following	is not a descriptive te	est f	or quality assessm	ent	of raw fishes?
	A) Market test		B)	Ranking method		
	C) Triangle test		D)	Quality index met	thoc	I
4		-7	_			

37.	In TVB analysis, one of for quality assessment		nce	is considered as ar	exe	cellent indicator
	A) Trimethylamine	· ·	C)	Dimethylamine	D)	NADH
38.	The preventive meas and pathogens in live A) Avoid fishing in co B) Ensure accuracy s C) Maintenance low- D) Candling	fish under HACCP ontaminated area scale	ollo	wed to reduce the	effe	ect of biotoxins
39.	The autolysis in post	_	n re	duce by		which helps in
	the quality and storag A) Evisceration		C)	Filleting	D)	Salting
40.	Among the following t		shel	l life is showed wh	ile it	is stored in ice
	A) Sardine	B) Mackerel	C)	Tilapia	D)	Pacu
41.	Lakes that is rich in h A) Eutrophic C) Dystrophic	umic and organic sub	B)	nce are called Mesotrophic Oligotrophic		
42.	Miscellaneous asser submerged in water is		gro	owing upon free s	urfa	aces of object,
	A) Seston	B) Nekton	C)	Neuston	D)	Periphyton
43.	Frustules made of sili A) Euglenoids C) Desmids	ica are characteristic	B)	Diatoms Coccolithophores	;	
44.	The phenomenon with A) Edge effect C) Cascade effect	n High Nutrient and Lo	B)	Chlorophyll (HNLC) Water Paradox Antarctic Paradox		also known as
45.	The Redfield ratio, the A) 120:30:1	e C : N : P ratio in Ind B) 106 : 16 : 1		ocean is 100 : 12 : 1	D)	132 : 22 : 1
4		-8	_			

46.	As per the latest FAG fish production is abo	,	ndia's contribution on	World aquaculture	
	A) 8.5%	B) 15%	C) 2.5%	D) 25%	
47.	Which among the foll Increase of temperate i. Low oxygen solub ii. High metabolic ra iii. High oxygen solub iv. High ammonia tox A) ii	ure in the aquaculture oility te of cultured species oility	e pond causes	D) i, ii and iv	
48.	Ideal C/N ratio used i A) 1:5	n biofloc technology B) 15:1	C) 5:1	D) 1:15	
49.	Which among the foll A) Salmon C) Kelp	owing is an inorganic	extractive cultured in B) Blue mussels D) Sea cucumber	IMTA?	
50.	Dolomite used for adj A) CaCO ₃	justing the pH/alkalini B) MgCO ₃			
51.	 Water flow through the RAS in a hatchery is in the order of A) Culture tank – UV chamber – Biofilter – Mechanical filter B) Culture tank – Mechanical filter – UV chamber – Biofilter C) Culture tank – Biofilter – UV chamber – Mechanical filter D) Culture tank – Biofilter – Mechanical filter – UV chamber 				
52.	Predominant mineral A) Pyrite	present in the acid so B) Calcite		D) Hematite	
53.	Black-lipped pearl oy A) Vizhinjam C) Andaman and Nic	· ·	s at B) Bengal D) Lakshadweep Isl	ands	
54.	How many distinct zo Macrobrachiumrosen	•	in the larval developm	ent of	
	A) 11	B) 32	C) 30	D) 5	
Α		-9	-		

55.	Deficiency of which amino acid causes A) Methionine B) Valine	scoliosis/lordosis in fishes ? C) Tryptophan D) Tyrosine
56.	Foam fractionator is used in the aquari A) Organic compounds C) Ammonia	um for the removal of B) Inorganic compounds D) Dissolved inorganic compounds
57.	Which of the following ornamental fisher A) Melon barbs C) Zebra fish	es produces non-sticky eggs ? B) Banded gourami D) All
58.	Marine ornamental fish hatchery produ A) <i>Amphiprionpercula</i> C) <i>Pomacentruspavo</i>	ction developed in India for B) <i>Amphiprionsebae</i> D) All
59.	Which among the following is not below i. Chlorella ii. Chaetocerous iii. Isochrysis iv. Dunaliela A) i and ii C) ii and iii	ngs to Chlorophyceae ? B) i and iv D) None of the above
60.	Name the marine rotifer. A) Brachionusplicatilis C) Brachionusrubens	B) Brachionuscalyciflorus D) Daphnia magna
61.	Which among the following is the mode A) Competitive exclusion C) Competition for nutrients	e of action of probiotic in fishes ? B) Production of inhibitory substances D) All
62.	Fresh water white spot disease in fisher A) WSSV C) Oodinium	es is caused by B) Ichthyophthiriusmultifilis D) Ichthyobodonecator
63.	Tilapia Lake Virus (TiLV) belongs to the A) <i>Orthomyxoviridae</i> C) <i>Togaviridae</i>	e family B) <i>Rhabdoviridae</i> D) <i>Alloherpesviridae</i>
Α		-10-

64.	The concept of huma the health of the ecos			•	endent and bound to
	A) Disease triad		,	Eco health	
	C) One health		D)	Sustainable he	alth
65.	Which among the following in the batch to batch variable ii. Expensive to prodiii. Recognize only or iv. Recognize multiple	iability uce ne epitope of an antig e epitope of an antige	en en		
	A) i and iii	B) ii and iii	C)	i and ii	D) All
66.	Which among the folloon A) Trifuralin C) Malachite green	owing is an antifunga	B)	mpound used in Crystal violet All	aquaculture?
67.	Most promising fish a A) Chitin	nd shrimp immunosti B) Peptidoglycan		ant isolated from Laminaran	n the yeast cell wall D) Glucans
68.	Preferred order of ele A) Iron, Nitrate, Sulfa B) Oxygen, Nitrate, Ir C) Carbon dioxide, So D) Oxygen, Carbon di	te, Oxygen, Carbon o on, Sulfate, Carbon o ulfate, Iron, Oxygen,	diox diox Nitr	ide ide ate	
69.	Which among the followard A) SPF status doesn't B) Developed through C) Result from a special D) All	t refer their susceptik h a rigorous quaranti	oility ne <i>a</i>	to infection or d and disease scre	ening process
70.	Concentration of nitrit A) New tank syndrom B) Air bubble disease C) Brown blood disea D) Acidosis	ne e	e cul	ture tank can ca	use
Α		-11	l -		

71.	Two coins are tossed head?	I simultaneously. Wha	at is	the probability of o	getting exactly one
	A) 0.25	B) 0.5	C)	0.75	D) 0
72.	In which approach to A) Classical approach C) Relative frequence	h	B)	are equally likely subjective approa	ach
73.	The chance that a shi 3 ships expected, no A) 0.80			?	obability that out of D) 0.488
74.	Which among the foll A) Mean = Variance C) Mean < Variance	owing is true for a Po	B)	on distribution ? Mean > Variance Mean = Standard	deviation
75.	If the points in a scattle bottom, the correlation A) Positive C) Zero		B)	vard trend from the Negative None of the abov	
76.	If correlation coefficient A) 80%	ent = 0.8, coefficient o B) 8%		termination is 0.8%	D) 64%
77.	Sampling error is pre A) Census survey B) Sample survey C) Both Census and D) Neither Sample no	Sample survey			
78.	What is the critical valevel of significance is A) 2.58		ion :		
79.	Large sample theory A) More than 30	is applicable when th B) Less than 30		ample size is Equal to 30	D) Atleast 100
Α		-12	2-		

80.	The Analysis of Variar A) Z test C) Chi-square test	nce (ANOVA) utilizes	B)	t-test F-test		
81.	Fisheries extension is A) Informal	* *			D)	Unorganized
82.	Fisheries extension is A) Culture	working in harmony B) Customs		-	-	le. Rituals
83.	The central element in A) Instructor C) Learner	n learning situation is	B)	Teaching equipm Subject matter	ent	
84.	A scientific representation A) Objects	on of the original with r B) Mock-ups				ing is known as Diorama
85.	 i. AV aids clarify the idea being presented. ii. AV aids vitalize and make teaching more real. iii. AV aids will not change the attitude or point of view of the farmers. A) Only i and ii B) Only i and iii C) Only ii and iii D) All of the above (i, ii, iii) 					S.
86.	Among the extension to method is used. A) Observation plots C) Method demonstra	-	B)	velop skill among tl Result demonstra National demons	atior	ns
87.	An outline of activities A) Project C) Plan of work	arranged for the effici	B)	execution of the el Calendar of work Action plan		e programme is
88.	In programme planning A) Villagers alone C) Villagers and local		B)	of the programme a Local leader alon Villagers and exte	е	

89.	is a quick appraisal method. A) Observation C) Questionnaire method	•	Interview method Participatory rura	
90.	production emphasis to include all land base A) Farmer-First (FF) Model B) Broad Based Agricultural Extension C) Farming Systems Research and Extension D) Circular Model Transfer of Technology	sed	activities.	and traditional crop
91.	Which country stood at first in terms of fish A) India B) China	-	production ? Japan	D) US
92.	When will people search harder to find sub A) When the price of fish is high B) When the taste of fish is too bad C) When the price of chicken is less D) When the supply of fish is high	ostitu	utes for fish ?	
93.	Write the term to describe a practice in originating with indigenous peoples, is used or compensation to the indigenous people	d by the	others for profit, wi mselves.	ithout authorization
	A) PSM B) Embargo	C)	Bio Piracy	D) Patents
94.	The agreement on the application ofsafety and animal and plant health standar A) Fishing subsides B) Sanitary and Phytosanitary measures C) Bio Piracy D) Production and Conservation		sets out the b	pasic rules for food
95.	Name the term that indicates the maximum or other population in the long term.			
	A) Maximum Production	,	Sustainable Prod	luction
	C) Maximum Sustainable Yield	ט)	Blue Economy	
Α	-14	4-		

96.	What is Pier? A) A raised structure in a body of water, typically supported by piles or pillars B) A long, narrow structure that protects a coastline from the currents and tides C) A platform to which ships are docked for loading and unloading		
	D) An enclosed area of water used for loading, unloading, building or repairing ships		
97.	What is the subject matter discussed in Section 22 of the Coastal Aquaculture Authority Act, 2005 ? A) Penalty B) Power to remove difficulties C) Protection of action taken in good faith D) Power of Central Government to make rules		
98.	What is the name of the project implemented by the Government of Kerala with a view to increase inland fish production, create new employment opportunities through development of inland and brackish water aquaculture and value addition of aquaculture products? A) Haritha Keralam B) Matsya Samrudhi C) Sea Ranching D) Theeramythri		
99.	That is a Small Scale Industrial Unit as per the definition revised in July 2020 in India ? An enterprise having investment up to Rupees 25 lakhs		
	 B) An enterprise having investment up to Rupees 5 crores C) An enterprise having investment in plant and machinery or equipment which does not exceed Rs. 1 crore and turnover which does not exceed Rs. 10 crores D) An enterprise having investment in plant and machinery or equipment which does 		
	not exceed Rs. 10 crores and turnover v	which does not exceed	d Rs. 50 crores
100.	What is the coastal length of Kerala? A) 551.5 Kms B) 589.5 Kms	C) 700 Kms	D) 710 Kms
